Amazon founder Jeff Bezos, who started the year in the top spot, sank to number two, adding a mere \$4.54 billion to his net worth, which now stands at \$195 billion.

亚马逊创始人杰夫·贝索斯在 2021 年年初是全球首富，现在降到了第二位，他的净资产只增加了 45.4 亿美元 (约合人民币 289 亿元)，现在达到 1950 亿美元 (约合人民币 12429 亿元)。

For Musk, it was an eventful year, marked by a hosting appearance on *Saturday Night Live*, a break-up with girlfriend Grimes, and his self-coronation as 'Technoking' of Tesla.

对马斯克来说，2021 年是不平凡的一年，这一年他在《周六夜现场》节目中担任主持人，与女友格莱姆斯分手，并自封为特斯拉的“电音王”。

Musk made huge waves as he sold off many billions worth of his Tesla stock in a move purportedly dictated by a poll he posted on Twitter.

马斯克抛售了价值数十亿美元的特斯拉股票，引起轩然大波，他号称是根据自己发布在推特上的一项投票做出这一决定。

In reality, at least some of the stock sales were driven by mandatory taxes as he exercised stock options that will expire in August.

实际上，马斯克抛售股票至少有一部分原因是为了缴纳税款，因为他要行使将于 2022 年 8 月到期的股票期权。

He has sold \$16.4 billion worth of shares since early November when he said he would sell 10 percent of his Tesla stock if Twitter users agreed, which they did.

2021 年 11 月初，马斯克声称如果推特用户支持，他将出售 10% 的特斯拉股票。在多数网友投赞成票后，他出售了价值 164 亿美元 (约合人民币 1045 亿元) 的股票。

Much is made lately of unrealized gains being a means of tax avoidance, so I propose selling 10% of my Tesla stock.
